62nd NSDC Will Go On As Planned

Members of the 62nd NSDC Committee wish to extend our sympathy and prayers to those that lost loved ones and property to the tornado that swept through Newcastle, and Moore, Oklahoma. All of our members live with this danger each year and we well understand the damage that these storms do. The 62nd Services Chairman lives in Newcastle and the Vice Chairman of Registration lives in Tuttle which is very close to the storm track.

Damages caused by this storm are quite extensive, but the tornado actually passed approximately 10 to 11 miles South of downtown Oklahoma City and the 62nd NSDC convention Site. I have checked with the Oklahoma Convention and Visitors Bureau and they report that there has not been damage to any of the facilities to be used by the our convention or any of the hotels we have contracts with.

So don't change you plans for coming to the 62nd NSDC. We will be waiting to greet you.

Dancers coming from the South up I 35 and the ones flying in may see some of the damages when they arrive, but other than the hotels being crowded, the rest of us would not know there had been a storm if we had not seen it on TV

Please keep the victims of this storm in your prayers and donate to their relief if you can.

See you at the 62nd,
Gene & Barbara Morton
General Chairman
